Nic, please see the attached notification of potential COI from Weston.

Please review the notification and provide your response to the addresses above. If Weston will not return to the site and will only prepare the final deliverable, usually this mitigates the COI with the caveat that should future work be required, Weston cannot perform the future work.

Thanks. I'm working til 11:30 today and 6:30 to 3:00 on Friday, Jan 4th.

Hope you had a wonderful Christmas and New Year.

---

Please find attached a notification of potential COI associated with the above-referenced site that START mobilized to on 18 December. At this time, we have demobilized from the site, and do not anticipate a need to make a return visit. We intend to continue to perform tasks as assigned by the OSC unless we hear differently from you.

Please let me know if you need any additional information.
